

READY FLOAT

| PRODUCT INFORMATION SHEET | January 2023 |

The **READY FLOAT** is a premium, light weight polyurethane float that has been formed with a smooth contact face and moulded edges and corners. The patent pending unique design offers a smoothing float that is ready to use without the inconvenience of having to wear in the tool.

The **READY FLOAT** is a first of its kind ‘broken in’ smoothing float, ready to use straight from the shelf, eliminating any time required to wear in the new float. This design provides user with a flawless finish, just like a well-worn in float.

The **READY FLOAT** comes in two sizes, small and standard and is suitable for all cement, plaster and render applications.

Size	Material	Dimensions	Weight
Small	Polyurethane	110 x 280mm	150g
Standard	Polyurethane	150 x 350mm	220g
